

Transitional Kindergarten Program

Now Accepting Fall 2018 Enrollment

- ❖ Is your child not quite ready for kindergarten, or simply not age-eligible this year? Our program is designed as a bridge between preschool and traditional kindergarten. It gives children additional time to develop the necessary skills for success throughout their school experience.
- ❖ Proudly serving the Hershey area since 1992, our activities engage children in key competency areas such as critical thinking, communication, collaboration, and creativity. We use a modified kindergarten curriculum that is age appropriate and follows the same daily schedule as a traditional kindergarten program.
- ❖ Classes are designed to reflect Pennsylvania Learning Standards. We teach social skills, such as self-confidence and cooperation, and early academic skills, such as pre-reading and math readiness.
